

VC-OEM *Specification Sheet*

Power adapter for mobile devices

The VC-OEM power converter features a built in voltage converter that allows an external power supply (between 9 and 36 VDC output) to be placed up to 50 feet away from the mobile device. The adapter allows for full 10 Watt power (2 Amps at 5 Volts) to be supplied to the mobile device for charging.

FEATURES

- Device power up to 50 feet from AC source
- Universal mobile device compatibility
- No casing
- Designed for commercial/OEM use
- Built-in voltage converter
- LAVA Limited Warranty
