

nSTS-3U *Feature Sheet*

SimulCharge™, 3 x USB Adapter for Samsung Micro USB Tablets

The nSTS-3U is a SimulCharge™ adapter designed for use with select Samsung Micro USB tablets. It features simultaneous charging and access to data, three USB-A ports for connecting USB peripherals and Docking Detect.

Docking Detect ensures the “greeting” protocols between the SimulCharge™ adapter and mobile device are executed correctly and consistently every time they are connected. This allows the adapter to be a plug-and-play technology that ensures the mobile device always operates in USB Host mode (SimulCharge™).

The nSTS-3U's Micro USB-B power port is rated for the standard 5 volts at 2 amps. This means you can use your mobile device's own charging cable with the adapter. A separate power supply is not included.

Note: For system requirements and other technical information regarding this adapter, please see the specification sheet.

Features

- USB Host operation while charging (SimulCharge™)
- 3 x USB-A port
- Docking Detect
- No mobile device rooting required
- LAVA Limited Warranty

Use Cases

- Warehouse Management System
- Staff Time Clock
